

This work makes available a complete analysis of the complex law relating to contaminated land in one well-organised source. It deals in depth with liability for contamination, but also systematically covers issues such as the assessment of contamination, redevelopment and clean-up, and the impact of contaminated land on property and corporate transactions. Bringing together relevant aspects of environmental, planning, health and safety, contract, insolvency and EU laws, it provides a one-stop reference on a relatively new area of law. * One-stop reference source - eliminating the need to consult many separate texts * Highly practical - including 19 precedents * Clear guidance on relevant legislation, regulations and decisions

Contaminated Land: 1st Supplement Â· Stephen Tromans, Robert Turrall-Clarke. ISBN
Published November Sweet & Maxwell Ltd.
